

Doing Business in Canada

Timely information. Up-to-date legislative provisions. Insightful commentary. That's precisely the type of content you'll find in McCarthy Tétrault's 2011 edition of *Doing Business in Canada* – making this guide an invaluable resource for anyone who is thinking about establishing or acquiring a business in Canada.

Recently updated for 2011, *Doing Business in Canada* provides a broad overview of the legal considerations that non-residents should take into account to help ensure their success as they enter into a business venture in Canada.

Beginning with an overview of the Canadian political and legal systems, the guide proceeds through the areas of law most likely to affect your business decisions: foreign investment, international trade, corporate finance, mergers & acquisitions, competition, taxation, intellectual property, real property and others.

The discussion in each section is intended to provide general guidance, and is not an exhaustive analysis of all provisions of Canadian law with which your business may be required to comply. For this reason, we recommend you seek the advice of one of our lawyers on the specific legal aspects of your proposed investment or activity.

With substantial presence in Canada's major commercial centres and in London, UK, McCarthy Tétrault has substantial presence and capabilities to help clients successfully complete any business transaction in Canada. The firm provides a broad range of legal services, advising on large and complex assignments for Canadian and international interests.

Built on a unique model of collaboration, the firm brings its legal talent, industry knowledge and practice experience, wherever needed, to help clients achieve the results that are important to them.
